Well we've had some good times, and life has been fun.  
And one things for certan, when all's said and done.  
We did things our own way, and it couldn't be better.  
I guess you could say, we got it together.

I guess you could say, we got it together.  
Life is uncertain, there's some stormy weather.  
But we were determined, that it would get better.  
I guess you could say, we got it together.

Now that we're married and we've setteled down.  
We gave up our night life out there on the town.  
We're staying home and life is much better.  
There's no doupt about it we've got it together.

I guess you could say, we got it together.  
Life is uncertain, there's some stormy weather.  
But we were determined, that it would get better.  
I guess you could say, we got it together.

And when we're old and life passes us by.  
We'll still be happy with no reason to cry.  
Our troubles for sure will be light as a feather.  
And we'll know in our hearts that we got it together.

I guess you could say, we got it together.  
Life is uncertain, there's some stormy weather.  
But we were determined, that it would get better.  
I guess you could say, we got it together.

Yah We got it together.
