who were those people Mommy? that came up to our door.
I saw them from my window, what are you crying for?
They were talking about my daddy, I heard one say his name.
Who were those people mommy? will you please explain?

They wore the same uniform, that my daddy wore.
When he had to leave us, to go off to war.
When is my daddy coming home? why did they say his name?
Who were those people mommy? will you please explain?

When my daddy left us, he said he'd come back home.
I've been watching for him, every day since he's been gone.
That's why I saw those people, and heard them say his name.
Who were those people mommy? will you please explain?

I know my daddy loves me, he would not tell a lie.
he'll be coming home real soon, so mommy please don't cry.
What did those people tell you? to cause you so much pain?
Who were those people mommy? will you please explain?

They said my daddy went away, and left us all alone.
They said He is in Heaven , and won't be coming home.
Well I know that isn't true, and they should be ashamed.
Who were those people Mommy? Will you please explain.
My daddy came to see me, here in my room last night.
He told me that he loved me, and he held me very tight.
Then He said He had to go, for someone called his name.
Who were those people mommy? will you please explain?
Who were those people mommy? will you please explain?
